Subject: Phase 1 Roof Replacement Buildings Final List.

Dear Kelly Lang,

Can you please clarify which buildings are included in phase 1 of the roof replacement to be completed this year?

The Reliable Engineering report of 12/6/22 said phase 1 will include 6 buildings: 1,2,3,4,14, and 19.

Your "March 2023 Update" said phase 1 will include 7 buildings: 1,2,3,4,15,16, and 19. Building 14 was dropped while buildings 15 and 16 were added.

We just got your letter today saying there are 9 skylights in phase 1. It seems to me that these 7 buildings would contain more than 9 skylights. Please explain.

Please tell us which buildings are included in phase 1 and which 9 unit numbers have skylights sent letters about replacement options.

I will be sharing your response with other unit owners. I hope this helps.

Thank you.
